

PROFILE

I am a dedicated ICT graduate with an Advanced Diploma in ICT and a Diploma in ICT in Business Analysis, possessing strong skills in data analysis, business intelligence, and machine learning. My expertise includes SQL, Python, C#, data visualization, and other programming languages. I am seeking an internship where I can apply my analytical and problem-solving skills while gaining hands-on experience in data-driven projects to advance in data analysis and business analysis.

SKILLS

Hard Skills

- SQL (Structured Query Language)
